THANK YOU FOR RETURNING TO OR NEWLY JOINING THE OREGON HAY AND FORAGE ASSOCIATION AND YOUR REGIONAL CHAPTER!

Just a summary again of the benefits of membership in the Oregon Hay & Forage Association:

The Oregon Hay and Forage Association will:

Publish an annual membership hay directory booklet for market promotion.

Sponsor the annual Oregon Hay & Forage Hay King Contest.

Publish the "Oregon Hay & Forage Association" newsletter

Provide an email alert and news service for the membership

Work voluntarily with USDA Market News Service to develop and maintain Oregon Hay Market Reports.

Co-sponsor and promote forage education through forage conferences, workshops, and field days.

Work with Oregon State University forage research and Extension Service programs to serve in an advisory capacity to forage related programs in Oregon.

Actively promote a working relationship with ODA/EPA as a forage advisor for pesticide use, organic certification, IPM, and other regulated areas.

Maintain a listing of members, services, and industry resources on the web at:
<http://www.oregonhaygrowers.com>

WHO WE ARE

We are a group of forage producers, agribusiness representatives, researchers and extension agents dedicated to promoting the forage industry in Oregon.

GOALS

To serve as a voice for forage focused agriculture in Oregon in order to educate the policy makers and the public.

To work with other agriculture organizations, i.e. Oregon Cattlemen's Association, Farm Bureau, Oregon Forage & Grassland Council, and Oregonians for Food and Shelter.

To support education, research and technical assistance which promotes the environmentally sustainable production of forages and agriculture.

To promote networking and marketing among forage producers, buyers, exporters and advisors, so producers will gain marketing advantages for their forages.
